**RE: Sealants Will Be Covered Benefit of Traditional Dental and SuperDental Plans**

In an ongoing effort to improve our dental products and processing, Medical Mutual of Ohio will cover sealants as part of our standard dental benefits package.

This benefit change will go into effect on August 1, 2005, for both Traditional Dental and SuperDental plans. The change will apply to the majority of Medical Mutual covered persons. However, sealants **will not** be covered under our individual product, SuperMed One.

**Benefit guidelines for sealant coverage are:**

- Sealants will be covered under *preventive* services.
- Sealant application will be limited to the first three molars and bicuspid.
- There will be no age limit.
- A frequency restriction of every 36 months applies.
- SuperMed One groups are not eligible.

If you have any questions regarding this benefit enhancement, contact Medical Mutual's Dental Customer Service at 1.800.822.1182.
