MEDICAL MUTUAL®

## Medical Mutual Conducting 12-Month Well Visit and Vaccinations Reminder Program

Medical Mutual is working with Pfizer to conduct a well visit reminder call and postcard campaign to members who have a child between ages 10 and 12 months. The call and postcard remind parents and guardians of the vaccines due at this age and encourage them to schedule their child's 12-month visit.

A copy of the postcard is available [here](#). Members should call Customer Care at the number on their ID card to determine if their plan covers the 12-month well visit and recommended vaccines.
