Mutual News Bulletin

Notice of Material Amendment to Agreement — Fee Schedule Update

The Medical Mutual updated network fee schedule will be available for reference August 1, 2014, via our secure Provider ePortal located at Provider.MedMutual.com. Any revision will be effective for dates of service beginning November 1, 2014.

The Provider ePortal offers search features based on individual provider NPI and TIN combination to view contract rates by:

- Procedure code most frequently submitted by your practice
- Specialty's commonly submitted procedure codes
- Contracted fees for individual procedure codes

If you have any questions regarding this update, please contact your provider contracting representative.

Member ID Cards Are Accessible from Our Mobile App

Members who download a copy of our mobile app can provide a copy of their ID card at the doctor's office or hospital by simply emailing or faxing their ID card to their healthcare provider. Besides being convenient, this insures the most current ID card is shared.

Note, for security purposes, your office must retrieve the patient's ID card image within 60 minutes, or the email will expire.
